

Dear Colleague,

To make paying health insurance and/or housing costs easy for you, we work with a payment portal called UZBpayportal. Do this through the P4F app.

Each week you will receive a payment request from us for housing costs and/or health insurance premiums. Occasionally, we also "bill" other costs, such as a deposit for the house key, bicycle or traffic fines.

1. Go to the P4F app and login.
2. Click on UZBPayportal in the start screen.

In the overview, a summary is shown with unpaid amounts:

3. Press the payment link to pay.

4. If you were fined, you can view the fine under "attachments."

1. iDEAL is the simplest method, unfortunately it is only supported by Dutch banks. We recommend opening a Dutch bank account and use iDEAL.
2. Bank Transfer is not preferred, it involved more actions and the chance of errors is higher. To use bank transfer, go to your bank's payment options.
If you do, it is very important that you use the correct payment reference.
If you make an error, the system cannot process the payment and the amount will be returned to your account after a few days. We advise against it.
3. Sofort is the second option. It is supported by most European banks. It is similar to iDEAL.
4. Przelewy24 is a Polish payment system to which most major Polish banks are connected.

7. Click on "Pay now." If you select iDEAL, Sofort or Przelewy24, you will be directed to a page to choose your bank.
8. After that you will be redirected to your bank's website or app. There you can pay. How to pay depends on your bank.
9. After settling the payment request, its status changes to "Paid" and the payment is done. As shown below.
